

Honiton Town Council – November 2022 Corporate Risk Assessment

This Risk Assessment is based on the EDDC format used for management of Events. It is focused on the general risks to the Honiton Town Council. The Risk Assessment uses risk scores as defined by the Council’s Risk Strategy and Policy (March 2021). **Those risks highlighted in BOLD are considered to be the most significant: Beehive; Employment Tribunals; Legal Challenge; Market.** Individual risk assessments are prepared for some risks.

The Council has a legal responsibility to protect itself and workers and others from risk to their health and safety. It must think about the risks they face and do everything reasonably practicable to minimise them, recognising you cannot completely eliminate risks.

The Council has completed the tables below: clerk@honiton.gov.uk *For further information, please refer to the resources at the bottom of this document.*
