Stephen Hill
Honiton Town Council

Dear Mr Hill

**Dog Control Public Spaces Protection Order
All Hallows, Honiton**

East Devon District Council are seeking to vary the existing Dog Control Public Spaces Protection Order for Kilmington Playing field, Kilmington and All Hallows Playing field, Honiton.

The existing Orders were made in 2023. However, we have been aware of several amendments that need to be made and this will require a public consultation.

The areas that we are consulting on are as follows:

- Kilmington Playing field – the Order currently states that there is a dog on lead requirement at Kilmington play area. This should state that there is a dog on lead requirement at Kilmington playing field and dog exclusion requirement at the children's play area.
- All Hallows, Honiton – the Order currently states that there is a dog exclusion requirement at the playing fields. This should state that there is a dog exclusion requirement on the sports pitches only.

The public consultation will involve contacting local residents, relevant district councillors, and a press release.

The consultation period will take place for two weeks from 14 October 2024 to 28 October 2024. The consultation will be hosted on our engagement platform Commonplace. To view the consultation please visit the online community engagement hub <https://eastdevon.gov.uk/community-engagement/>

If you have any further questions or experience issues regarding Commonplace please contact the engagement team by email engagement@eastdevon.gov.uk .

Yours sincerely

Environmental Health Department
